

# PAVANYA SHANALI RATHNAYAKA

---

## IT Undergraduate | Aspiring IT Intern

Rathmaldeniya, Pannipitiya | (071) 5581 429 | [pavanyarathnayaka02@gmail.com](mailto:pavanyarathnayaka02@gmail.com)

**LinkedIn** - <https://www.linkedin.com/in/pavanya-shanali-rathnayaka/> **GitHub** - <https://github.com/shanalie26>

## Profile

Motivated IT undergraduate with a strong passion for UI/UX design, user-centered design, and modern web & mobile application development. Interested in combining creativity and technology to build clean, intuitive, and responsive digital experiences while exploring both frontend and backend development.

Experienced in designing visually appealing and user-friendly interfaces for web and mobile applications. Skilled in translating user needs into meaningful designs using tools such as Figma, Adobe XD, Canva, and Webflow, while continuously learning modern approaches to software development and digital product design.

Seeking opportunities to gain hands-on industry experience, strengthen technical and creative skills, and contribute to impactful and meaningful digital solutions.

## EDUCATION

**SLIIT, Malabe** – BSc (Hons) in Information Technology, 2023-2027

Sujatha Vidyalaya, Matara – G.C.E. Advanced Level (2020/21)

## PROJECTS

### ✦ Smart Campus Operations Hub

- Developed a smart campus management system using React and Spring Boot REST APIs
- Implemented functionalities for maintenance tickets, resource bookings, notifications, and user management
- Contributed to building responsive interfaces and backend system integration

### ✦ StudySync Academic Management Platform

- Developed a web-based academic management platform for university collaboration and workflow management
- Implemented features for group coordination, project tracking, and discussion-based collaboration
- Contributed to frontend and backend development in a team-based software engineering project

### ✚ **Daily-Bloom Habit Tracker Application**

- Developed an Android habit tracking application using Kotlin
- Implemented features for daily habit monitoring and productivity tracking
- Designed a clean and user-friendly mobile application interface

### ✚ **Pet-Pal Mobile Application**

- Developed a Kotlin-based mobile application focused on pet care and management
- Implemented user-friendly mobile interfaces and core application functionalities
- Contributed to mobile application design and development using Android technologies

### ✚ **LIVELY – Period Tracker UI Design**

- Kotlin- Designed a modern period tracking mobile application interface using Figma
- Created user-centered wireframes and intuitive UI layouts for improved user experience
- Focused on ease of use, clarity, and user-friendly navigation

### ✚ **Pink Aura Salon Management System**

- E- Developed a salon management system to streamline appointments and customer management
- Implemented user-friendly interfaces for efficient salon operations and service handling
- Collaborated in a team-based software development project using modern web technologies

## **UI UX & DESIGN SKILLS**

- **UI/UX Design Tools:** Figma, Adobe XD, Canva, Webflow
- **Design Principles:** User-centered design, usability, accessibility, visual hierarchy, consistency
- **Wireframing & Prototyping:** Low fidelity & high-fidelity designs
- **Responsive Design:** Mobile-first and web interfaces

## **SKILLS**

- **Frontend:** HTML, CSS, JavaScript, React, Tailwind CSS
- **Programming:** Java, Python, Kotlin, PHP, SQL, C, C++, R, C#
- **Web & Backend Basics:** MERN Stack, JSP Servlets, MySQL, Spring Boot
- **Tools:** UNIX/Linux, Fedora, Shell Scripting, Apache Tomcat
- **Soft Skills:** Leadership, Communication, Teamwork, Problem-Solving, Adaptability, Critical Thinking
